

Do you have a **PROPERTY INSURANCE SHORTFALL?**

Imagine if your property was severely damaged by fire, flood, storm or another disaster. Your insurance would cover the costs, wouldn't it? Possibly not!

Because if like a staggering 80% of property owners you face an insurance shortfall, you may find it impossible to fully repair, rebuild or reinstate your building. This could leave you with a huge amount to pay. You could even lose your business!

Thanks to **BHIB's** partnership with rebuild cost experts [INSURANCESHORTFALL.COM](https://www.insuranceshortfall.com) you can quickly discover whether you have a property insurance shortfall and what you should do about it. We can assess how much your insurance falls short by and guide you towards putting it right.

Our **competitive price per property** for this service and comprehensive written report is a small price to pay compared to the potentially devastating cost of inadequate insurance.

If you would prefer a site visit, rather than our online service, we can provide that too as a premium option.

If you would like us to assess whether your insurance will cover the cost of a claim on your property, simply get in touch by calling 0330 024 06 06 or speaking to your usual BHIB contact.

Prices start at only £102 per property (Commercial Premises), and can be offered for various property types including, but not limited to: -

- Offices
- Industrial
- Retail

Terms, conditions and sample reports can be supplied upon request.
