

Do you have a PROPERTY INSURANCE SHORTFALL?

Imagine if your home was severely damaged by fire, flood, storm or another disaster. Your insurance would cover the costs, wouldn't it? Possibly not!

Because if like a staggering 80% of high value homeowners you face an insurance shortfall, you may find it impossible to fully repair, rebuild or reinstate your property. This could leave you with a huge amount to pay. You could even lose your property!

Thanks to BHIB's partnership with rebuild cost experts INSURANCESHORTFALL.COM you can quickly discover whether you have a property insurance shortfall and what you should do about it. We can assess how much your insurance falls short by and guide you towards putting it right.

Our competitive price per property for this service and comprehensive written report is a small price to pay compared to the potentially devastating cost of inadequate insurance.

If you would prefer a site visit, rather than our online service, we can provide that too as a premium option.

If you would like us to assess whether your insurance will cover the cost of a claim on your property, simply get in touch by calling 0330 024 06 06 or speaking to your usual BHIB contact.

Prices start at only £72 per property (Residential Property), and can be offered for various property types including, but not limited to: -

- Residential Properties
- High Value Homes
- Listed Properties

Terms, conditions and sample reports can be supplied upon request
