

MEDIPRO

Through our extensive research into the occupational health profession and by working with some of the founder members of COHPA (Commercial Occupational Health Providers Association), we have developed a working knowledge of the occupational health profession that we **believe** is second to none.

Our close working relationship with COHPA has enabled us to provide a policy that is specifically designed to meet the needs of occupational health providers and their unique position within the medical profession. This has resulted in BHIB Insurance Brokers being appointed as COHPA's preferred insurance partner.

For commercial occupational health providers, it is common to find policies that have been incorrectly arranged, with either too much or too little protection. We have worked with many OH Groups, initially appraising their current insurance scheme, highlighting gaps in cover and advising on how best these can be addressed.

For smaller occupational health providers we also have a bespoke package policy available.
